Child Participant Information Script & Assent

To be read aloud for Children up to 12 years old

USER-CENTRED DESIGN OF GAMES FOR GAELIC DIGITAL NORMALISATION

Student: Luke Macleod, Final Year Computer Science Student

Child aged 8 to 12 years – Participant Information , Consent & Assent

Participant information:

- Parents or guardians are given a PIS under the template: [PIS - PG \(0-12y\)](#)
- Each child will be given information verbally, which will be read out using the script (**section 1**)

Consent:

- Parents or guardians will be given a consent form under the template: [consent form - PG \(0-12y\)](#)
- The child's ongoing assent should be ensured throughout the research activity (**section 2**)

Section 1 will deliver participant information in a child-friendly manner.

Section 2 annotates the scenario for seeking both initial and continuous verbal assent from children

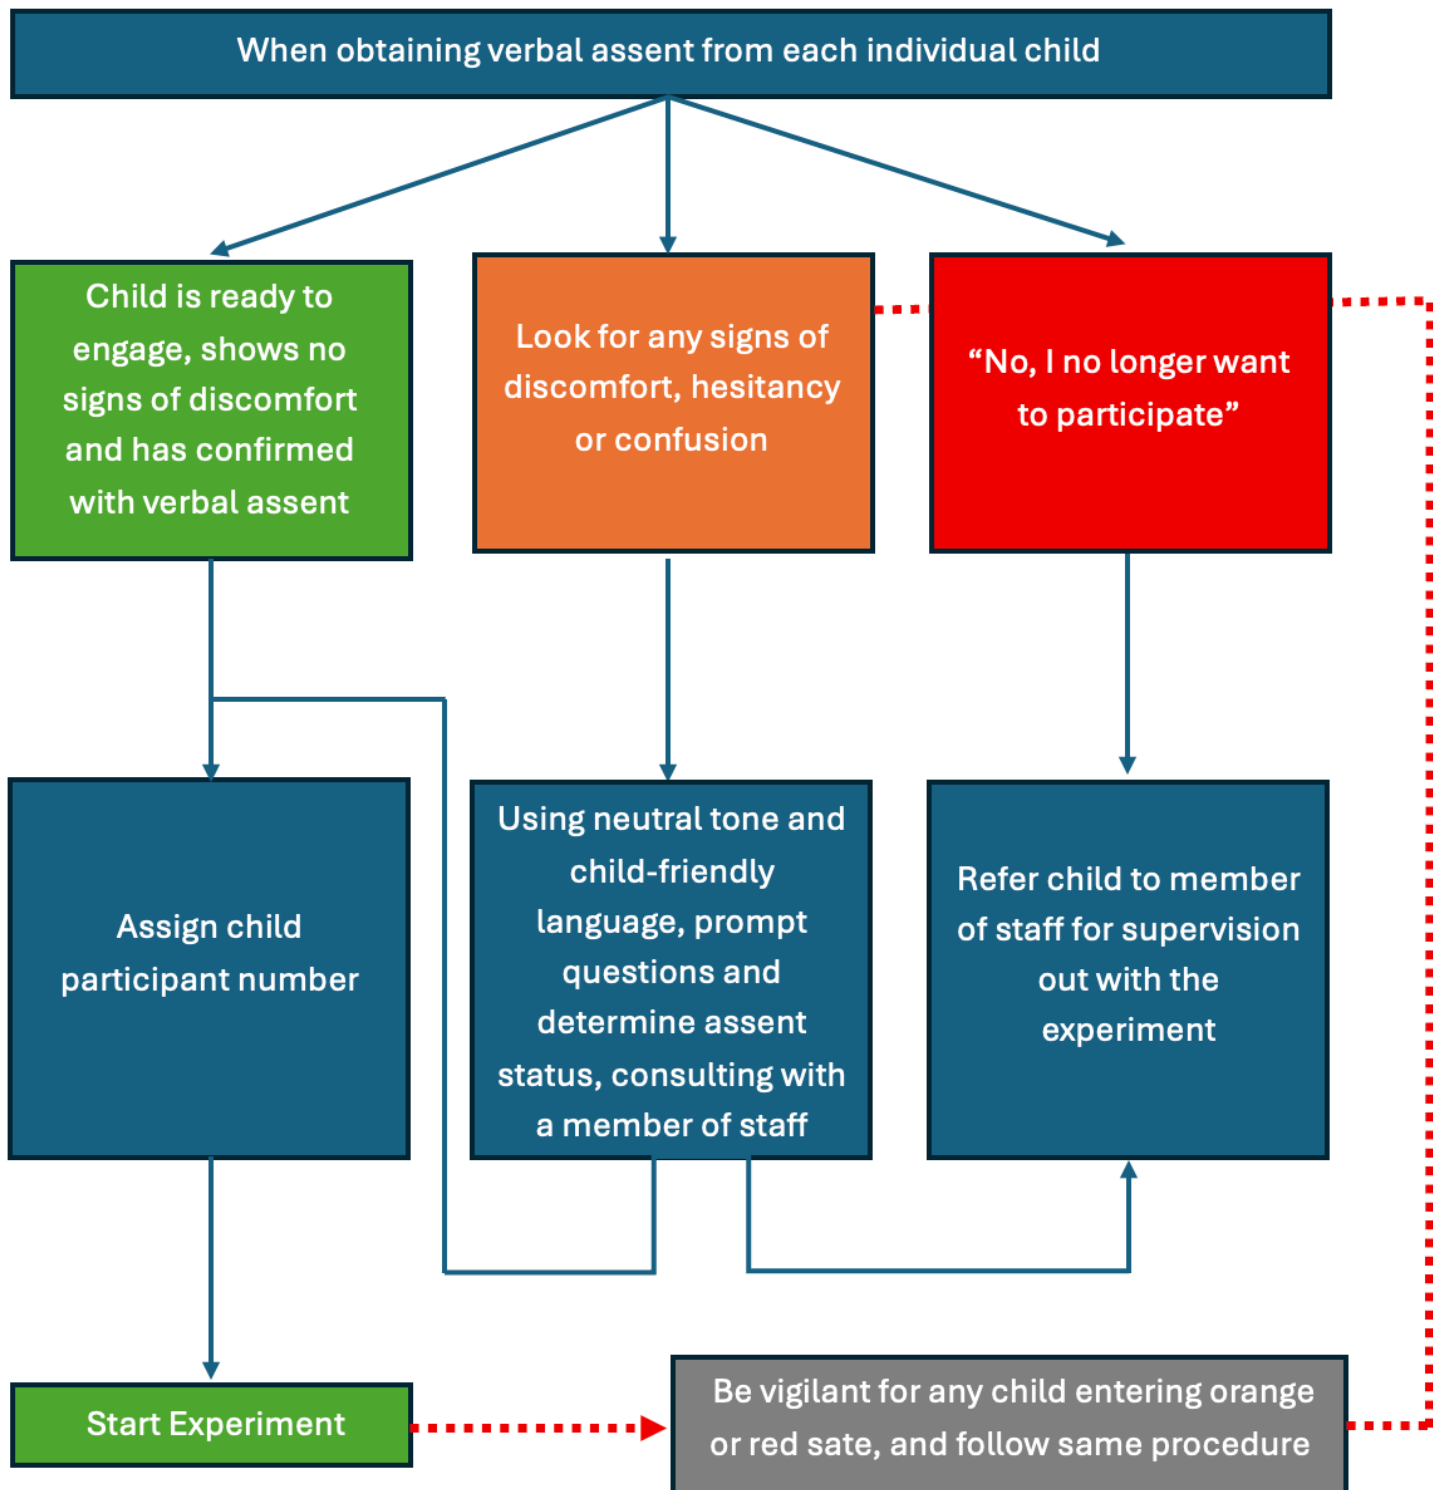

Section 3 is the debrief script which will be read after the pupils have participated

Section 1: Child Participant Information – Verbal

CHILD BRIEFING SCRIPT - (To be read aloud by researcher to pupils, age 8-12)
Hello everyone! My name is Luke, and I'm a student at the University of St Andrews. Today I'm going to ask you to help me with something fun – testing out a new Gaelic game!
What are we hoping to do today?
You're going to play a brand new game that's been designed to help you use Gaelic in a fun way. I want to know what you think about the game – is it fun? Is it easy to use? What could make it better?
How long will this take?
The whole thing will take about 45 minutes to an hour. First, you'll get to play the game for about 30-40 minutes, then you will fill out a quick questionnaire and we'll chat about it for 10-15 minutes afterwards.
What will you do?
- Play the game on a device (laptop / iPad) - Answer a few short questions about what you thought - Talk with me and maybe some of your classmates about the game
Is it okay if you want to stop?
YES! If you don't want to keep going, or if you want a break, just say so. You can stop at any time. There's no 'right' or 'wrong' here – I just want to know what you really think.
Is this a test?
No. This isn't a test. I'm not testing your Gaelic – I'm only testing the game . If something doesn't work or you don't understand it, that helps me make it better.
What happens to what I say?
Everything you tell me or do during the game will be kept private. I'll give you a special code number instead of using your name, so no one will know it's you.
If I don't want you to use something I've said is that ok?
Yes, if you agree to take part and then change your mind about things, that is ok. I can delete anything that you have said / done that you are not comfortable with. But remember to tell me, your teacher or parent or guardian straight away, because after 2 days all of your codes will be taken away and I won't know which one is yours to delete.
Do you have any questions?
Prepare to answer any questions

Section 2: Child Assent

I will adhere to the following protocol when obtaining assent from children. It should be noted that if a child transitions from an assent (green) state to dissent (red), any information they have provided will be deleted upon their request

Section 3 Child Debrief

CHILD BRIEFING SCRIPT - (To be read aloud by researcher to pupils, age 8-12)
That is the end of our session, thank you to everyone for taking part.
What have we done?
Played a brand-new Gaelic game Filled out a questionnaire Took part in a discussion group
How will my parents/carers know what we've done
A letter is here for you to give to your parent / guardian so that they know you've done this today.
Hand out certificates
I have a certificate for everyone, as well as a small stationary item as a thank you for helping me today.
Does anyone have any questions or worries?
Prepare to answer any questions
Final Thank You & Goodbye
