USER-CENTRED DESIGN OF GAMES FOR GAELIC DIGITAL NORMALISATION

Student: Luke Macleod, Final Year Computer Science Student

Guidance for researcher:

- Use conversational tone - these are prompts, not rigid questions
- Allow children to interrupt and build on each other's ideas
- Use follow-up prompts like "Tell me more..." or "Has anyone else noticed that?"
- Encourage all voices - watch for quieter children and gently invite them in
- Take brief field notes on key themes and who said what
- No "right" or "wrong" answers

Discussion Questions:

Game Preference

If you had the choice, would you rather play a game in Gaelic?

Gaming Habits

Do you play games? How often? With whom?

Would you like to play Gaelic games just for fun, or would you like Gaelic games as part of your learning at school?

Cultural Interests

What topics/themes from your life, community, or culture would they like to see in a game?

Towards normalisation

How do you feel about using Gaelic on your laptops / iPads? Do you like the idea of having games, websites and apps that suit your language and way of life?
